**Notice: ORDINANCE 266: An ornamental fence, hedge or wall not more than 3 1/2 feet in height may project into or enclose any required front or side yard. Fences may project into the side yard from the front building line of the structure to the rear of the lot line, provided such fences are no less than 6 feet and doesn't exceed a height of 8 feet. In no event shall any fence project into any drainage easement for open drainage.**

I hereby certify that I have read and examined this application and found the same to be true and correct. All provisions of laws and ordinances governing this type or work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction. If application is granted, I agree to notify the Building Inspector or his representative when work is to be started and request a site inspection. Fence contractor is responsible for securing all permits. Prior to starting, a registered engineer must stake property lines. All fences must have a 3 foot clear opening to allow utility or drainage easement to be accessed.
